City of Bangor.

IN CITY COUNCIL, Jan. 8th, 1866—Ordered, That the Street Engineers be, and they are hereby directed, to widen Summer, May and Union streets, in such a manner as to include the lot of land lying between Union and May streets, as prayed for in petition of Wiggins Hill and others, to the City Council No. 26, 1865, and estimate the damages any individual may sustain thereby, and apportion the damages so estimated, upon such lots or parcels of land as are benefitted thereby, according to law, and make return of the same to the City Council. GEO. W. SNOW, City Clerk.
A true copy of record—Attest:
GEO. W. SNOW, City Clerk.

In pursuance of the above Order, the Street Engineers hereby give notice that they will, on Thursday the eighteenth day of January inst., at nine o'clock A. M., proceed and widen said streets, in accordance with the above order, commencing at the corner of Union and Summer streets. And all persons interested in said widening are notified and requested to be present at the above time and place, that they may be heard upon the subject, that said Engineers may estimate and decide upon the damages any individual or individuals may sustain by the widening of said streets as above.

INSURANCE AGAINST ACCIDENTS.

THE ORIGINAL
Travelers' Insurance Co.,
OF HARTFORD, CONN.
Capital, - - $500,000.
Insures Against.
ACCIDENTS,
OF EVERY DESCRIPTION.
CAUSING LOSS OF LIFE OR BODILY INJURY.

THE TRAVELERS INSURANCE COMPANY was organized, under a charter granted by the Connecticut Legislature of 1863, and amended by the Legislature of 1864, for the specific purpose of effecting INSURANCE AGAINST ACCIDENTS, of whatever kind or description, whether they occur in travelling by railroad, steamboat or stage-coach, walking in the street, at work in the shop, or sitting by the domestic fireside, whether riding, boating, hunting, fishing, shooting, swimming, cricketing, surveying, engineering, whether working, or playing, sleeping or waking, in danger or out of (apparent) danger, at home or abroad—in every variety of circumstances in which mankind are ordinarily placed.

A General Accident Policy not only includes the risk in travelling, but also all forms of dislocations, broken bones, ruptured tendons, sprains, concussions, crushings, bruises, cuts, stabs, gunshot wounds, poisoned wounds, burns and scalds, bites of dogs, unprovoked assaults by burglars, robbers or murderers—the action of lightning or sun stroke, the effects of explosions, chemicals, floods and earthquakes, suffocation by drowning or choking.

This company has now been for more than a year in successful operation; has issued over fifteen thousand policies, and paid numerous claims for compensation, has a directory of high character, and is managed with the prudence and sagacity which distinguish Hartford insurance companies; has an ample capital and large surplus, and its soundness and stability may be relied upon.

General Accident Risks.
TEN DOLLARS PREMIUM
Under a *General Accident* policy, will secure $10 per week compensation while disabled, (not exceeding twenty-six weeks,) or $2,000 in the event of death by accident.
TWENTY-FIVE DOLLARS PREMIUM
Will secure $25 per week or $5,000 in case of death.
FIFTY DOLLARS PREMIUM
Will secure $50 per week compensation, or $10,000 in case of death.
Any other sum, from $500 to $10,000, at proportionate rates.
Where compensation only is desired, or payment is to be made only in case of death, *the rates are much lower.*
☞ The above are the "ordinary" or lowest rates "special" rates are $1 per thousand higher.

New York Life Insurance Co.,
112 AND 114 BROADWAY.
THIS is one of the oldest institutions of the kind in America, having been chartered in 1841, and commenced business in May, 1845.
EVERY ONE SHOULD ENSURE.
While we live we may protect those dependent upon us; But when death severs the tie of all others most dear, it is a consolation to know that our prudence and foresight have made provision for the wants to which we can no longer minister; and the man who has the power, but neglects the opportunity, of providing in this way for the comfort and independence of his family, fails in the duty which he owes to them and himself. Therefore, let every one who has not obtained a policy of Insurance upon his life, no longer neglect this imperative duty. GREAT CARE SHOULD BE MANIFESTED IN THE SELECTION OF A COMPANY. The
NEW YORK LIFE INSURANCE CO.
Offers the following highly important essentials:
It is a strictly Mutual Company;
It has had Twenty Years' Business Experience;
It has large Accumulated Assets;
It gives Liberal Assistance in the Payment of Premiums;
Its Dividends are declared Annually;
It is prompt in the Payment of all Losses;
IN FACT,
Special care in the selection of its risks, strict economy, and a safe and judicious investment of its funds, emphatically characterize the management of this company.
Assets over **$4,500,000.**
Annual Dividend, January 1, 1865, **50 Per Cent.**
Total Amount Returned Premiums (Dividends) paid **$1,700,000.**
Total Amount Claims by Death paid, **$3,500,000.**
During its existence it has issued
Over 36,000 Policies.
TEN-YEAR NON-FORFEITING POLICIES.
The New York Life Insurance Company originated, and was the first to bring before the public, the Ten-Year Non-Forfeiting Plan, which has so fully commended itself to the judgment of thinking men that it has become the most popular mode of insurance, and is rapidly superceding the old method of lifelong payment. It has received THE UNQUALIFIED APPROVAL OF THE BEST BUSINESS MEN OF THE LAND, large numbers of whom have taken out policies under it as an investment.
TEN YEAR NON-FORFEITING PLAN.
A party ensuring by this table, after the second year, cannot forfeit any part of what has been paid in, and his policy becomes a source of income to him while living.
ANOTHER NEW FEATURE.
TEN YEAR NON-FORFEITURE ENDOWMENT POLICIES.
The New York Life Insurance Company have recently prepared A NEW TABLE, BY WHICH THE PREMIUMS CAN ALL BE PAID IN TEN YEARS AND THE NON-FORFEITURE BENEFIT ALSO SECURED. These policies are coming into general request. As a sure and profitable investment for one's declining years, they deserve the attention of all. A party ensuring by this table the amount is received by the assured himself, upon his attaining a specified age, while full provision is made for death occurring prior thereto.
Policies Issued on all the Usual Forms.

"THE SECRET SERVICE,"
THE FIELD,
THE DUNGEON AND THE ESCAPE!
BY ALBERT D. RICHARDSON,
N. Y. Tribune Correspondent.
(ISSUED IN ENGLISH AND GERMAN.)
THIS work embraces the entire narrative of Mr. Richardson's unparalleled experience for four years travelling through the South in the Secret Service of the Tribune at the outbreak of the war, with our armies and fleets, East and West; his thrilling capture and confinement, for twenty months, in seven different rebel prisons; his escape and almost miraculous journey of near 400 miles, aided by negroes and Union mountaineers. It abounds in stirring events, and contains more of the fact, incident, and romance of the war than any other work which has yet appeared. One of the most interesting and exciting books ever published. Now ready in both English and German. Sold only by subscription. Address

CONFEDERATE GENERALS IN MEMPHIS. A letter from Memphis in a New York paper has the following notices of certain military notabilities recently attached to the Confederate army:

"I have met in this city several of the prominent war-men of the late confederate armies, among whom I may mention especially Lieut. Generals Stewart and Forrest. Stewart is an elegant man, and will ever be among the faithful. He says he cannot go into ecstacies over his defeat—he cannot jump up and hug the man who knocked him down, but he will hold himself in readiness to help that fellow knock down anybody else who comes along. Gen. Stewart says there is not a man in the whole South who was in the Confederate army but is in favor of peace and harmony. All those who want to fight now would not fight when they had a chance. I called on Forrest at his store, and saw the great cavalryman selling a ham to a son of Ham, by the way, which is no joke—at least the American citizen of African descent didn't think so, for he was growling, as the cockneys would say, at the ham-azing high price of the article. Forrest is about forty-five years of age, is six feet two inches in hight, and weighs one hundred and seventy-five pounds. He is erect, well proportioned, has no surplus flesh and moves with great ease. He is perfectly satisfied with the condition of things, and is in hearty co-operation with the loyal men of Memphis.

I went to the store of Gen. Mark Wright and found him all right—and tight, I may add, for it was New Year's Day, and he had been egg-nogging; in fact he had been egg-nogging it to such an extent that he was pretty high egg-nogged up when I met him. He is no 'Fenian,' but he hurrooed like one of the bys.

A pleasant thing took place a few evenings since at the Gayoso House. A steamer arrived from New Orleans with Joe Johnston on board. About ten minutes later a steamer arrived from Little Rock with Tecumseh Sherman as passenger. These two chiefs met at the Gayoso office. Sherman steps up to Johnston and says, 'Why, Johnston, how are you?' and a hearty hand-shaking, &c., followed. These are your real reconstructionists, these soldiers who have been in the field."

REMARKABLE ESCAPE FROM JAIL.—A horse-stealer, named Hiram Carpenter, recently escaped from the Orleans county jail at Albion, New York, but was retaken. He has given the following account of his escape underground:—

"I should never have thought about trying to get out, but I heard that my woman was sick, and I got it into my head she was going to die. I wanted to see her, and I asked them to take me to her house. I was willing to go there in handcuffs and shackles, and a child might have taken me, for I wouldn't have offered to get away. But they kept putting me off, and I made up my mind I would get out and see her or die in trying. So I went at it. I raised up the pump box and found there was a hole in the flagging large enough to pass through. I laid down on my face on the floor and backed into the hole feet first. I found the well plastered near the top, so hanging on with my hands I let myself down as far as I could and dropped. I had no idea of the depth of the well, or where I should bring up; I only knew that the well was dry. I dropped straight with my face to the west. I found bottom at about twenty feet, landing in mud and water two feet deep. After recovering from the shock of the fall I took off my boots, tied them around my neck with my handkerchief, and clambered up to within about ten or twelve feet of the top. The only tool I had was a piece of iron about six inches long and half or three-quarters of an inch square. With this I went to work and after some labor dislodged a stone from the wall. In a very short time I was at work in the dirt. I supposed the foundations of the jail went down about eight feet, and I calculated to begin down low enough to come up slanting under them. I had nothing to eat or drink, and had nearly died for lack of air, (the only air that could reach him being the little that passed down through the crevices of the pump-box.) I worked steadily all the time I was in there, and hard work it was too. I worked lying on my face, with the iron in my hand above me, scraping the dirt until the weight on my head was all I could bear, when I backed down and pushed it behind me into the stone filling around the wall. When I got near the surface I found it hard digging. The ground had been filled in, it was full of stones, and frozen hard. The hole at the surface was so small that I took off my clothing to get through it. I finally got out into the air about 10 o'clock Wednesday night, having tunnelled about twelve feet, and worked at it thirty-two hours of the hardest work I ever did. I was so weak and exhausted when I got out that I had to lie still for some time. At last I got strength enough to climb up the wall and drop into the park."

GAS EXPLOSION. About noon yesterday a strong odor of gas was perceived in the dry goods store of Messrs. Anderson, Heath & Co., No. 5, Winthrop Square. Mr. Wm. S. Anderson, on searching for the leak, lighted a match in the basement, and the gas which filled the apartment instantly ignited, causing a terrible explosion, which, but for the great number of outlets open to the expanding gas, would have rent the building to its foundations. As it was, the destruction was quite serious. The wood work of the apartment was torn into shreds, the glass in the basement and first story windows was much broken, and some of the sashes were torn from their places. The office of the entry clerks was partially demolished and filled with fragments of the wreck. The explosion was accompanied by a heavy thunderous sound, and the concussion produced by it was so great, that many panes of thick glass in the windows of the stores on the opposite side of the street were broken. The persons in the building at the time escaped death as it were almost miraculously. Mr. Anderson was considerably burned and bruised, but is expected to recover. A man sitting about fifty feet from him was much injured by being thrown against the window, and others were prostrated but not seriously hurt. The entry clerks were at dinner at the time. The damage by the explosion is estimated at about $8000.—[Boston Advertiser.

Anecdote, Humor and Sentiment.

COLORED ARISTOCRACY. The following case of aristocracy is reported as having come off lately at Staunton, Va.:

"One of the northern 'school-marms' who is there employed in teaching the 'freedmen,' told a sprightly negro girl that she 'must not call the woman with whom she lived mistress; that she was just as good as anybody.' Pretty soon the girl asked her teacher what business she followed before coming south to teach. 'I was a bonnet-maker,' was the reply. 'Well!' said the girl, gathering up her books and making for the door, 'I am not going to 'sociate wid you any longer; you say I is ekel to my mistress, and she don't 'sociate wid bonnet-makers.'"

Rev. Nathaniel Howe, was settled over a Congregational Society in Hopkinton, Mass., for more than half a century. His wit was pungent, yet it was never used except on necessary occasions. "Settle your minister on a cart," he said to the people of Holliston, who were fond of changing pastors. "Why build a new meeting-house? The *sleepers are all sound*," he inquired of a remarkably drowsy congregation. "O Lord, have mercy on fair *weather* and *afternoon* hearers!" he prayed one pleasant afternoon, when the house was unusually well filled.

CORWIN AND FOOTE. A bill introduced by Mr. Clay had been defeated in the Senate, whereupon Mr. Foote of Mississippi rose in intense excitement, and exclaimed—"Mr. President, this republic ceases to exist by noon to-morrow."

Mr. Corwin, who opposed the measure, and was greatly rejoiced at its defeat, gravely left his seat, and walking over to Mr. Foote's chair, said, "Mr. Foote, did I understand you to say that our Government would expire to-morrow?

"Yes, sir."

"Well, now, Foote, I am deeply grieved to hear you make such an announcement. I have several bills before Congress that I am exceedingly interested in. Now, couldn't you, just to gratify me, have this final end adjourned over, say two weeks?"

Foote was extinguished in the laughter that broke from the Senators sitting near.

Four years ago a needle-woman of Paris lost her husband, and in the violence of her grief, made a vow she would never marry again. Last October she was re-married. She went on the Feast of the Dead to pray on her first husband's grave; she begged him to pardon the violation of her vow: her excited imagination seemed to hear a voice from the grave exclaim, "Never!" She fainted away and remained in a swoon for six hours, and died the next day.

Lord Norbury's joke on the attorneys is savage. A shilling subscription having been set on foot to bury one who had died poor, he exclaimed, "Only a shilling to bury an attorney! Here's a guinea; go and bury twenty of them!"

Justice Gould tried a case at York, and when he had proceeded about two hours discovered only eleven men in the box. "Where is the twelfth?" asked he. "Please you, my Lord," said one of the eleven, "he is gone about some other business, but he has left the verdict with me!"

DON'T LIKE THE BOYS. The St. Louis Republican gives the following part of a letter received by a friend from a daughter nine years old, who is now at a boarding school, placed there because she was one of those who knew too much to stay at home:

My Dear Father: I was very glad to hear from you, and hear you are well; but I was not a bit glad to hear that mother had a baby, because it was a boy. I should be very glad if it were a little girl. I hate boys worse than ever. Now I am going to tell you what to name it. I am going to choose a homely name, because I don't think boys ought to have pretty names. Boys are squalling all the time. You don't have one minute's peace while there is a boy baby in the house; but when you have a baby sister in the house you never hear it cry. Name him Peter; that is good enough for boys; the reason I write so much about boys is because I don't like them."

MURDER IN PARIS. Yesterday Mr. Charles E. Whitehead, the counsel for the French Consulate, executed a commission rogatory in the United States District Court, taking testimony in regard to the murder of Thomas Laverque.

It appears that Thomas Laverque, a judge of one of the French courts and a man aged seventy eight years, while coming from London to Paris in October last, made the acquaintance of a young Frenchman named Gabrielle Poncet. On the 6th of that month the judge and the young man walked out together to spend the evening. On the next day the body of the Judge was found in the Bois de Boulogne with several stabs in the breast and the pockets rifled. The young Frenchman was arrested but showed no proof of guilt. Under cross-examination he stated that he had been a waiter at Fijux's Hotel, in New York, and who his acquaintances had been there. Hereupon a commission rogatory was sent to this city through the French Consul, to examine whoever might have knowledge concerning the matter.

The commission, executed, it was discovered that Gabrielle Poncet came to this country an escaped convict from Cayenne.—That he worked during the month of August last at Fijux's Hotel, in Waverley place, and being then quite poor he was sent by the liberality of Mr. Wiedenkeller, a compatriot, back to France, where, on his arrival, he was arrested for this murder. But the link in the proof obtained which will weigh heaviest with the accused was that he had sent a box with some presents in it to the friends who had aided him at New York. The box being intercepted was found to contain the watch and other valuables of the murdered man.

The commission, with all the evidence, was returned this day to the Tribunal of Versailles that had issued it.—New York Herald, 11th.

Despatches to the Evening Times.

NEW YORK, Jan. 17.

The Herald's Cincinnati despatch states that a political fracas occurred at Richmond, Ky. Two families named Parish and Kavanaugh, were the principals. Some sixty partizans took part in the affray. One man was killed, three are supposed to be mortally wounded, and half a dozen others seriously injured.

Ex-Generals Heath, Pillow, Hood, Longstreet and other Southern leaders have been in Cincinnati lately and engaged 1600 white laborers and purchased 800 cotton ploughs.

The Herald's special Washington despatch says—

Commodore Winslow, the principal witness against Semmes has arrived. The pirate will be tried at an early day.

NEW YORK, Jan. 16.

The jury in the inquest in the case of Mary Ann Gilroy, frozen on the passenger ship Neptune, concluded their investigation last night. They reprimand Captain Peabody, and found Dr. Herrick guilty of neglect and incompetency, and considered his case the proper one to go before the grand jury. He was placed in charge of the police to await the action of the criminal authorities.

WASHINGTON, Jan. 17.

The forty-ninth annual meeting of the American Colonization Society was held last night.

Revenue for the year was $4,681,920, disbursements $4,193,487. Of the balance $488,537 is awaiting the order of the Liberian authorities.

The number of emigrants to Liberia was 527, exceeding any year except 1856, and included 172 freedmen from Lynchburg, who arrived safely.

Gov. Wells returned to-day from Alexandria.

Gen'l Humphrey, Government Engineer, arrived at Baton Rouge on the 12th, to go up the coast with two or three regiments, to rebuild the levees.

The Brandon (Miss.) Republican says:

Many of the planters have secured a sufficient number of white laborers to cultivate their plantations.

A citizen arrived at San Antonio, Texas, 3d inst., after a ten days' trip from Monterey and Saltillo.

He gave information that the French troops have fallen back to San Luis Potosi.

The Matamoras Ranchero of the 5th contains the following:

Several officers and men crossed at Clarksville, Texas, and took up their quarters apparently for the night. Shortly after midnight, the guards at the ferry and along the river were surprised and disarmed by this party. Such lighters as were at hand were immediately seized, and with them the party crossed the military force at Clarksville, about 100 strong, mostly negroes, and entered Bagdad.

The Imperial garrison in Bagdad, 175 strong, was completely surprised and captured. The commander of the post and captain of the guards were taken prisoners while in bed. It is reported from Lellis that the latter escaped. The fillibusters upon capturing the town immediately inaugurated a system of plunder and pillage. The warehouses were gutted and their contents crossed over to the American side of the river.

The Imperial gunboat Antonio was called upon to surrender, but answered with a broadside, which for a time scattered the fillibusters. A second demand for the surrender was subsequently made, which was answered in a similar manner. The Antonio at the time was en route up the river.

An Austrian sergeant on board of her was killed at daylight.

The French man-of-war in the harbor opened on the fillibusters, compelling them to take refuge in the upper part of the town. The last accounts stated that the fillibusters still held the town. The deaths reported on each side 31. It is stated that the fillibusters are commanded by Gen. Reed.

Gen. Crawford has started from Brownsville for the scene of action. Last accounts say that 1800 Imperialists had left Matamoras to attack the fillibusters.

STATE REFORM SCHOOL. The annual statement of the affairs of the State Reform School shows the expenditures of the year to have been $26,586.07; receipts $28,673.18; leaving a balance on hand of $1,137.11. The estimates for the coming fiscal year are: expenses, $22,500; resources $7,700; leaving to be appropriated by the State, $17,800, or $3,800 more than was expended from the last appropriations.

The report of the Superintendent shows the whole number of boys received into the Institution since it was opened, to be 902; admitted during the year 68; present number 183; discharged or apprenticed 66; allowed to leave on trial 9; allowed to enlist, returned to master, and violated trust, 1 each; total 78.

The Trustees speak of the educational department as fully up to their expectation, and the department commendable.

The shoe shop has not been remunerative; and the introduction of practical shoe making and mending has been introduced, as an experiment. The chair shop has failed to be profitable, and the business of bottoming chairs will be abandoned if it cannot be made more remunerative, whenever something more satisfactory can be substituted for it.

The condition of things in the sewing room was more satisfactory. The business of making brick and tile has been found as remunerative, as anything that has been attempted at the Institution, and measures have been taken to increase the facilities for this manufacture, so far as the state of the market will justify.

Concerning the idea which prevails that the Reform School, if justly conducted might be made self-sustaining, the Trustees say that their experience will not warrant them in holding out any encouragement that such a result will be likely to be attained for some time to come.

THE MONROE DOCTRINE. The National Intelligencer, under its old management, had the habit about once a year, under the provocation of some new waywardness in the public mind, of publishing a long and elaborate explanation of what the Monroe Doctrine really meant. One of its conclusions was, that this celebrated doctrine did *not* inculcate a general crusade by the United States in favor of liberty on the American Continent. A re-perusal of some of these essays, says the Boston Journal, would prove beneficial to certain gentlemen who took part in the public meeting in New York, recently.

The President of the meeting, Wm. Cullen Bryant, said very judiciously and correctly: "We are to discourage the interference of European princes in the affairs of a sister American republic." But the resolutions, the letters and the speeches went much farther than this. The resolutions, for instance, declared that, by our adoption of the Monroe doctrine, we have assumed a responsibility toward our sister republics, and an obligation to protect and defend them." Representative Van Horn writes that there is put one course in regard to Maximilian's government in Mexico, and that is, "a notice to quit, backed by a demonstration on the frontier to enforce it if declined." Mr. Montgomery Blair writes in the same vein, and thinks we ought by force to "check the French Emperor in his mad career in Mexico;" for the sake of helping the liberals of Europe to inaugurate a new revolution there. Among the speakers, Mr. T. R. Tomlinson said, amid great applause:

"And we have a right, for the purposes of humanity, for the purposes of Christianity, and by reason of the traditions of our country—we have a right to say to the allied powers of Europe: 'We did not interfere with you; and it is necessary for our preservation that we *allow no monarchies upon the continent of America.*'"

According to this, the Emperor of Brazil must go, and we suppose the Canadas must be detached from the British monarchy. It is safe to say that the people of this country attach no such meaning as this to the Monroe doctrine. Even in the case of Mexico, as deeply as we sympathize with the Republic and abhor the means by which an European dynasty has been foisted for the time being on the necks of the people, the crisis does not yet require us to resort to an armed interference. The matter for the present lies within the domain of statesmanship, and while our Government should have the full support of public sentiment, we are persuaded that it does not need to be pushed into any aggressive or belligerent position.—The quiver of our resources has yet many weapons to be used, as effective as they are legitimate, before the horrors of a second war are to be added to those from which we are just beginning to recover.

THE ADAMS EXPRESS ROBBERY. The two thieves arrested at Norwalk on Tuesday had a partial hearing on Wednesday, and were required to give bonds in the sum of $25,000 each for appearance next Saturday, at Norwalk to undergo a full examination. They failed to procure bonds and were bro't over to Bridgeport on Thursday morning and locked up. The entire amount of treasure recovered, including that found at Cos Cob bridge, amounts to $245,000.

THE ENORMOUS FLOW OF GOLD. Soon after the late war broke out the shipments of gold from California to the Atlantic seaports dropped from about thirty-five millions annually to about twelve millions. All the rest was sent to foreign countries or brought East by other conveyance, so as to escape capture by the rebel privateers. The tide has again turned, for we see, by a recent table of shipments, that $20,564,895 have been sent, by the California steamers, to New York within the last year. The whole amount sent forward from San Francisco to the Eastern States from January 1, 1864, to Dec. 20, 1865, is $37,050,710. Of course this is not the whole product for the time specified. Much of the gold is sent to foreign countries to pay for merchandise and to settle exchanges, and a vast deal more is sent East by other modes than regular shipment by the steamers. In a recent work published at San Francisco, the whole gold product of the Pacific country since 1848 is set down at $750,000,000.

MORE OF THE BARBARISM CAUSED BY SLAVERY. Saturday night a box carefully addressed to Senator Sumner, was left at his house. On opening it there was found the finger of a negro, which had apparently been chopped off with an ax, wrapped in a note written in a disguised hand, which commenced with an offensive appellation, and then read: "I send you a piece of one of your friends, and if that bill of yours passes I will have a piece of you." The note is signed "A Union Man." The bill referred to was doubtless the one which would establish universal suffrage in the District of Columbia, and which has made Senator Sumner again a mark for the vengeance of those whose power he has so persistently opposed.

The following was probably from a similar source:

Associate Justice Field, of the U. S. Supreme Court, at Washington, was the recipient, on Saturday, of a package of a torpedo like character, charged with three bullets. He had no suspicion of its character, but fortunately opened it in such a manner that the walls of his room received the balls, apparently intended for his body.

AN ALLEGED SWINDLE. The New York Sunday Times publishes a story of the doings of General L. C. Baker, the War Department Detective, in connection with the capture of bounty jumpers made by Baker in March last, going to show that Baker, in company with one M. C. Stanley and Allen, Hughes & Riley, substitute brokers, appropriated $126,000 which had been paid by the Mayor of Jersey City to the brokers named for the very men who were entrapped and sent to Fort Lafayette for enlisting them in the quota of Jersey City. The men were never enlisted and the Mayor never got his money back, but it is said is now on the track of the parties concerned in the swindle. Two of them are reported to have suddenly left the country, but Hughes, one of the brokers, has been arrested. It is also charged that more than $200,000 was swindled in like manner out of towns and cities in the interior of New York.

A DANGEROUS ROAD. Going to Rome will not prove to be either a safe or a pleasant journey if all accounts are true. The British Consul there under date of Nov 28, 1865, advises all his travelling fellow countrymen that "various bands of brigands have now descended from the Neapolitan territory into the Papal States, in such numbers that the small amount of Papal troops (in the absence of the French) is evidently unable to contend with them. These organized bands now extend from Viterbo to Frosinone, so that most of the frontier towns are without protection, and three individuals are prisoners until they can be ransomed." The Italian government, seeking to root out the evil, prohibits by law the payment of any ransom for persons thus captured.

A HUMANE MOVE BY PRESIDENT JOHNSON. The Washington correspondent of the New York Commercial Advertiser says that "when government had all the wood in range of the surrounding fortifications cut down that it might not shelter sharpshooters, it was corded for use by the troops, and immense quantities remain all about the city. This the President has ordered to be sold in lots of less than ten cords at $7.50 per cord, which is sad news for our fuel speculators, who expected a famous rise in prices now the river is frozen."

French law sometimes sets strong examples, as the following case will prove. Two travellers took tickets in Paris for Pau. The mail van of the train broke down thro' the overheating of an axle, and so delayed it as to reach Bordeaux too late for the train to Pau. The passengers had consequently to stay in Bordeaux all night, for which they claimed damages. In reply, the railway company pleaded that the accident was inevitable; but the court held that axles overheat themselves rather in consequence of negligence than from unavoidable causes, and therefore condemned the company to pay 200 francs damages.

MURDER AND SPEEDY RETRIBUTION. In Walworth county, Wisconsin, on the 5th, three men entered the house of a man who had just sold his farm for $4000, and, finding the farmer absent, murdered his wife and child, and proceeded to ransack the building. While thus engaged, a person living near by, hearing suspicious noises, went to the house, saw what had been done, and shot all three of the assassins, killing one, and mortally wounding the others.

MISCELLANEOUS ITEMS.

—The Argus exultingly exclaims, "President Johnson is a *trump*." This is some improvement. It is only about six months since that paper would allow him to be anything more than a *knave*.—[Press.

CAUTION. Landlords and keepers of boarding houses are cautioned against an individual calling himself J. W. Carman or Cannon, who is travelling about the country as a canvasser for several new publications, and running up bills for board which he forgets to pay on leaving. Several parties in our city have been victimized by him in this manner, and at their request we pass him round.—[Press.

—When Miss Burdett Coutts became the heiress of Mrs. Coutts, who had been Miss Mellen, the actress, her fortune was computed at thirteen tons of gold. It has been growing ever since, and the unfortunate lady is so rich that she cannot spend her income or even give it away, although several active secretaries are kept busy in reading and answering the begging letters addressed to her.

—During the year 1865 State aid has been furnished to 860 families in Portland, and the amount paid is $58,181 98, which is to be refunded to the city from the State Treasury. About 2000 persons have thus derived a benefit from this fund.

—In 1865 there were 188 railway accidents in the United States, by which 385 lives were lost.

—About one thousand tons of shot and shell thrown into the forts at the mouth of Cape Fear river, (below Wilmington,) by the navy, during the bombardment under Admiral Porter, have been collected and will be sold at auction, Feb. 15th, for the benefit of the government.

—Portland is in want of tenements, and the papers of that city are advising those of moderate means to bend all their energies to building houses of their own. The Press says building lots can be obtained in that city only twelve or fifteen minutes walk from the Post Office, for from ten to fifteen cents per foot.

—A daily commercial paper has been started in Boston by Messrs. Libbey & Dennison, edited by Joseph P. Morse. It is called the Daily Evening Commercial, and is a large, well printed paper.

The paper, as we understand, takes the place of the Boston Evening Courier, and is the end of the well known "Boston Courier," the Whig organ of old days. The coroner's inquest would probably say, "Died of George Lunt."

—The name of the post office at Brown's Corner, (Vassalboro) is probably to be changed to "Riverside."

—In describing the wedding of the Iowa giantess, a paper gravely remarks:—"The bride did not falter or tremble upon being led to the altar."

—It is reported that William Graham of Nashua, Chickasaw county, Ill., has suddenly found himself worth forty-five millions of dollars. It comes from his great-grandfather's estate in Scotland, which was sold many years ago, the price it brought having since accumulated in the Bank of England. He had previously quarrelled with his wife and son, and has now made a will cutting them off without a shilling.

—Mr. Griffin, of Indiana, has been appointed Treasurer of the Fenian Brotherhood.

—In overhauling a bale of cotton the other day $27,000 in gold was found in it.

—The Washington Chronicle says that the same fiendish spirit that resulted in the murder of President Lincoln, is still at work.

—A wealthy citizen of Boston was found lying in the street drunk, with nearly $2000 in gold on his person.

Perry's Moth and Freckle Lotion. Chloasma, or Mothpatch, (also Liverspots) and Lentigo, or Freckles, are often very annoying particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them *without* injuring the texture or color of the skin, is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a specialty, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless. Prepared only by B. C. HALE'S HONEY OF Horehound and Tar, FOR THE CURE OF COUGHS, COLDS, INFLUENZA, HOARSENESS, DIFFICULT BREATHING, AND ALL AFFECTIONS OF THE THROAT, BRONCHIAL TUBES AND LUNGS, LEADING TO CONSUMPTION. This sovereign remedy is compounded from the favorite recipe of an illustrious Physician and Chemist, who for many years used it with the most complete success in his extensive private practice. He had long been profoundly impressed with the wonderful virtue of the honey of the plant Horehound, in union with the CLEANSING and HEALING properties of tar extracted from the LIFE PRINCIPLE of the forest tree *Abies Balsamea*, or Balm of Gilead. For years he was baffled in his attempts to blend these great medicinal forces into such a union that the original power of each would be preserved, the disagreeable qualities of common tar removed, and the price of the compound be within the means of all. At last, after a long course of difficult chemical experiments, he found that by adding to these two other ingredients, each one valuable by itself, he not only obtained the desired results but greatly increased the curative power of the compound. This having been thoroughly tested by practice, is now offered to the general public as a safe, pleasant and infallible remedy. PRICE 50 CENTS PER BOTTLE. Income for Current Year, all Cash,	3.500.000
Paid Claims by Death since formation of Company,	6.000.000
Receipts from Interest alone,	5.000.000

The Advantages Offered by the **Mutual Life Insurance Co.** OF NEW YORK, ARE AS FOLLOWS: It has a Larger Amount of ASSETTS than any other Company in this Country, amounting to **$14.000.000,** And are exclusively Cash!

DIVIDENDS ANNUALLY, and may be used as CASH in payment of PREMIUMS, or as an income when there is no Premium to pay. Dividends declared upon a purely Mutual Plan, equitably dividing all the profits remaining after payment of expenses and the necessary reserve. Rates of Premium are lower than in most Companies. Premiums on Ten Year Policies cease at the expiration of ten years, making the Policy A PAID-UP POLICY, with Dividends still continuing a source of income during its existence. All Policies issued by this Company participate in the Annual Distributions. Policies issued so as to be non-forfeitable except by reason of direct violation of the condition of the Policy. The safest and best investment that you can make of a few dollars, is to place it in a LIFE INSURANCE POLICY.

READER, ARE YOU INSURED? If not, call upon the undersigned, and take a policy upon your life in the **Mutual Life Insurance Co.** OF NEW YORK, The Best and Safest Company in the U. S.

Why is it the Best and Safest? Because it has double the Cash Assets of any Life Insurance Company, and will earn more than any Company in this country for the Policy Holders. No man with a dependent family, is free from reproach, if his life is not insured. See to it before it's too late. Secure an Insurance on your life in this Company, by so doing you have made a wise investment. You will have the satisfaction of knowing that (when you are called hence) those you have loved, cared and provided for while here, are beyond the reach of want through your prudence and wisdom. Information given, blanks, statements and circulars furnished on application, either in person or by mail to **Charles P. Wiggin,** AGENT.

Note carefully the name of this Company—THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK, that it may not be confounded with others somewhat similar. Jan 17

TRACY'S **Patent Improved Gauge,** —FOR— **Hanging Gang Saws!**

THESE GANG SAW GAUGES are superior to any other now in use. They save two thirds of the time over any of the old kinds, in changing, being made in sections varying from one fourth an inch, to three inches, and can be varied to any desired dimensions with perfect accuracy. THEY ARE CHEAPER AND MORE DURABLE Than any other, give a better bearing upon the saws, holds them firmer; and in two months will pay their cost in time saved by changing, to say nothing of their convenience in being varied to all dimensions required. State, County, and Town Rights for Sale. For further particulars apply to the Inventor, at Brewer Village, Maine, or Messrs. PALMER, JOHNSON and THOMAS N. EGERY, Exchange Street, Bangor. J. TRACY. dec 19—5w*

To Whom it May Concern. THIS MAY CERTIFY that we have been using the past season, Tracy's Patent IMPROVED GAUGES, for hanging gang-saws, and do not hesitate to say that the time saved in changing gates during one season, will doubly compensate the expense. The gauges are so arranged that they may be changed to any desirable thickness in a very few minutes, and with perfect correctness. They are very durable, not liable to get out of order, and hold the saws much firmer than the old kind of gauges. We recommend them to owners of gang mills as being a time and labor saving invention. Washington Matters!

A Report of the Army Organization by the Secretary of War.

The American Colonization Society.

Sale of the New York Stock and Money Market.

The Murderers of Heffernan, of Tennessee, to be Executed on the 26th Inst.

WASHINGTON, Jan. 17.

The Secretary of War, in compliance with the Senate resolution, gives information of the officers and men of the Regular Army, how many, and where stationed, with a similar list of general officers of Volunteers.—It seems there are yet in the Volunteer service 47 Major Generals, and 141 Brigadier Generals; of the former, three are commanding Districts, 17 commanding Departments, five on special duty, one on leave of absence, and 21 are ordered to be mustered out; of the latter 23 are commanding Districts and Departments, six are on Courts Martial, six are Ass't Commissioners on the Freedmen's Bureau, ten are on other special duty, four are on leave, and 102 are ordered to be mustered out. Ths. leaves in the service 26 Major Generals and 41 Brigadier Generals.

The highest in rank in the Regular Army is as follows;

Lieut. General Grant; Generals Halleck, Sherman, Meade, Sheridan, Thomas.

The Brig. Generals are Irwin McDowell, William S. Rosecrans, Phillips St. George Cooke, John Pope, Joseph Hooker, W. S. Hancock, John M. Schofield, O. O. Howard, and I. A. Rawlins.

The total number of officers and men in Regular Army is 1121 officers and 23,795 men—an aggregate of 24,919. Of the officers, 100 in the cavalry are absent, 113 in artillery, and 368 in the infantry. Of the men, 5472 are recruits.

According the last return all the regiments except the seventeenth are designed to military departments, and as fast as recruits are received the unorganized companies are formed and put en route for places of service. Companies already organized are receiving recruits; about 3000 per month are being enlisted.

The delegation from the North American British Provinces, who are here for the purpose of securing if possible an extension of Reciprocity Treaty, accompanied by Secretary McCulloch, called on the President today and paid their respects. They propose in a day or two, making a trip to Richmond, and upon their return will have an interview with the Secretary and the committee of ways and means with regard to the object of their mission.

It appears from the report of the Superintendent of Public Printing, that the nett cost of the public printing and binding for the year ending Sept. 30th last, was $1,731,—5—. The close of the rebellion has caused a considerable decrease in the requisitions of the executive department for printing, but with the large amount of deferred printing for Congress, and that which will be ordered the present session, will be doubtless enough to work the whole establishment up to its full capacity for the next two years.

The report shows a large saving in printing and binding over the contract system which existed previously to the establishment of the Government Printing Bureau.

Postmaster General, during December appointed fifty post mistresses.

The board of directors of the American Colonization Society held a meeting to-day, and re-elected John H. B. Latrobe, President. All of the Vice Presidents, 79 in number, were re-elected except Jas. Railey, of Miss., Hon. Thomas Corwin of Ohio, David Trumbull of La., and David Hunter of Miss., who died during the past year.

Senator Doolittle of Wis., was elected as an additional Vice President.

All the other officers were re-elected.

A member of the Board stated that he had a consultation with Gen. O. O. Howard, of the Freedmen's Bureau, who favored its objects, and expressed his willingness to aid them in their work of colonizing negroes. He expressed a desire to know if the Society would assist in sending colored men to Florida, there to be colonized.

This was opposed by some of the Board, one of them giving as a reason that he believed Africa was the promised land of the negro, and that he was of the opinion that they all, sooner or later, be civilized and christianized in that country.

NEW YORK, Jan. 17.

The Commercial's money article says—

The stock market maintains the improvement noted yesterday. There are fair degrees of activity in some of the leading stocks, and at the close of the morning board prices were ½@¾ per cent above closing figures of yesterday.

A late bear combination of five strong firms, who were the means forcing down the quotation last week, have now taken the opposite track, hoping to make a profit ont of a bull movement. They find, however the advance much more difficult of achievement than the decline, for the reason that they now operate against the feeling of the market, while in the opposite movement they were aided by a strong tendency of the market. They find the whole of the old bull interest ready to sell any amount of stock, and not being prepared to shoulder such a burden their success must be very limited.

Governments are comparatively quiet, pending the action of Congress on the finance bills. Money continues very abundant.—Private bankers receive deposits generally at 4 per cent. Call loans made on security at five per cent. Applications for loans on railroad collaterals are mostly met at six per cent; the demand, however, is very limited, large bankers having as much money on hand as they can use. There is a slight movement of currency westward, but not sufficient to affect the tone of the market.—Discounts are without change. Foreign exchange nominal. Gold is in more demand from importers, and the price tends upward.

NEW YORK, Jan. 17.

Six firemen were badly injured at a fire in Norfolk Saturday night.

The Post's special Washington dispatch says—

It is doubtful if the Ways and Means Committee will agree to the foreign loan clause of the loan bill.

NEW YORK, Jan. 17.

The Commercial's special Washington dispatch says:

Secretary McCulloch opposes the project of equalization of bounties, on the ground of the inability of the Treasury to meet the enormous drain contemplated.

NASHVILLE, Tenn., Jan. 17.

A fire occurred this morning in the store of Thomas Gorman, College Street, damaging the stock to the amount of $40,000—fully insured.

Messer's colored battery, for a long time stationed in this city, was mustered out of service yesterday.

The finding and sentence of the court martial in the case of the murderers of Wm. Heffernan, have been approved, and Gen. Thomas has directed the sentence to be carried into effect, by their being publicly hanged on the 26th inst. The names of the murderers are Joseph Lyeought, William Beal, George Craft, and Thomas Perry—all of whom were Government employes.

NASHVILLE, Jan. 17.

The steamer Richmond is now being loaded with cotton for New Orleans, being the first shipment that has been made to that port.

Cotton ruling quotation 40@43c—42 being the ruling price.

The announcement of the speedy execution of the Heffernan murderers affords general satisfaction to the community. The poisoners received the announcement of the execution with apparent unconcern.

The name of the Knoxville Railroad has been changed to Tennessee and Pacific Railroad, the intention being to connect by way of Memphis and Little Rock, with the Southern Pacific Railroad through El Paso.

TRENTON, N. J., Jan. 17.

Joint resolutions in favor of the constitutional amendment passed the House Assembly today—42 to 10.

NEW YORK, Jan. 17.

The steamer Manhattan, which put back to Havana, was from Vera Cruz for New York.

An earthquake occurred on the 3d inst in Mexico doing considerable damage at Orizaba, Maltrata and other places in the interior with loss of life.

A railroad is projected to cross the isthmus of Tehuantepec.

The Captain General of Cuba is still at Verauna with the Supreme Court of Cuba, he having countermanded a recent order of the latter for the production of six hundred slaves from the estate of Zaluta, on the plea that they were free. The affair has been referred to Spain.

The mail steamer from Cadiz had two cases of cholera on board and was quarantined at Havana.

Several coasting vessels were wrecked.

BALTIMORE, Jan. 17.

The House of Delegates of Maryland today passed resolutions endorsing General Grant's recent letter opposing the withdrawal of federal troops from late insurrectionary districts, and opposing the army of the militia of those States.

BUFFALO, N. Y., Jan. 17.

A Chicago letter into day's Courier says there will be a Grand Fenian Convention in Buffalo Feb. 1st.

NEW YORK, Jan. 17.

Arrived—Ship Surprise, Yokahoma, Japan.

NEW YORK, Jan. 17.

Arrived—Steamer Eagle, from Havana 13th inst.

Steamship Manhattan had returned to Havana with machinery broken.

Among passengers by the Eagle are Governor Curtin of Pennsylvania, and his family.

Thirty-Ninth Congress.

FIRST SESSION.

WASHINGTON, Jan. 17.

Senate.

The credentials of Mr. Graham, of North Carolina, were received and tabled.

The bill ceding to West Virginia Government lands and tenements at Harper's Ferry, was referred to the military committee.

Mr. Doolittle extended his remarks at great length, at the conclusion of which Mr Nesmith obtained the floor. Ad

House.

The House tabled the bill to incorporate the National Protective Homestead Co.—12 against 32.

A resolution was adopted directing the Sec'y of the Treasury to inform the House with what States public deposits have been made, and how much still remains deposited.

The credentials of J. N. Goodrow, Delegate from Arizona, were presented, and he was qualified and took his seat.

A resolution was adopted requesting the Secretary of War to suspend the sale of government property at Point Lookout.

The bill regulating the time and place for holding of the District Court of Maine was passed.

The District of Columbia Suffrage bill was taken up.

Mr. Darling, although believing in assuring all needed rights and protection to the negro, did not believe in conferring right of suffrage upon him in his present state of ignorance.

Mr. Dale favored the bill.

Mr. Thayer also favored the bill.

No action was had on the bill.

A resolution was adopted requiring the Superintendent of the Coast Survey to furnish a statement of the advantages of the Patuxtent river for a Navy Yard. Adj.

Reported for the Whig

Legislature of Maine.

AUGUSTA, Me., Jan. 17.

SENATE.

On motion of Mr. Perkins, the House order relating to U. S. vessels that have served under foreign flags during the late rebellion, was temporarily laid upon the table, (Mr. Perkins expressing the opinion that the order had no definite point or significance) but was, afterwards called up and passed.

On motion of Mr. Porter, the petition of William Dyer asking for the passage of a law permitting parties to fix the rate of interest by contract was referred to the Committee on Mercantile Affairs and Insurance. The Senate non-concurring in its reference to Judiciary Committee.

On motion of Mr. Barker,

Ordered, That the Committee on Judiciary be instructed to inquire into the expediency of giving Judges of Probate authority to grant change of name to any person or persons in their respective Counties making application therefor.

Petitions presented and referred—By Mr. Moore, of Moses Green and others; also of Marcellus Stewart and others, also of J. W. Patten and others; also of J. W. Gould and others; also of W. H. Brown and others, also of Joseph Merry and others, also of T. F. Paine and others, also, of M. M. Dinsmore and others, also of James Bailey Jr. and others, all for the charter of a railroad from Waterville to a point near Carratunk Falls in Somerset County.

HOUSE.

Mr. Payson, of Westbrook, presented the following preamble and resolves:

Resolves in relation to United States Bonds and the Assumption of War Debts.

Whereas, a bill is now pending in the Congress of the United States, introduced there and supported by a Representative from this State, which bill proposes the assumption by the General Government of certain debts, State and municipal, known as war debts; and

Whereas, this construction is not only a legal and self-evident one, but would, in addition, facilitate the settlement of the vexed and important question of the taxation of United States bonds, but would protect the rights of States and individuals, and would prevent any collision between the General Government and the States, likely to arise from the exemption of taxation as aforesaid; and

Whereas, all legislation is faulty, so far as it fails to be uniform and consistent with itself; therefore

Resolved, First, That any measure adopted by Congress, contemplating the assumption of the so-called war debts, should include in it and provide for that particular form of the war debts above specified, no less than other war debts.

Resolved, Second, That in any measure which may be offered to Congress having reference either to the assumption of war debts, or to the question of the exemption of United States bonds from taxation, our Senators and Representatives in Congress be requested to use their influence to give such form and effect to the principles herein declared, as the case may admit, of.

Resolved, Third, That a copy of these resolves be sent to our Senators and Representatives in Congress.

The resolves were on his motion referred to the Committee on the Judiciary.

Mr. Webber, of St. Albans, introduced the following order:

Ordered, That the Committee on Finance be instructed to inquire into the expediency providing for the assumption by the State of all debts incurred by towns, in paying bounties to volunteers during the late rebellion.

Referred to to Judiciary Committee.

Mr. Shepley, of Portland, introduced a bill in relation to the rate of interest, (leaving the rate as at present, except where parties agree upon a different rate, which, they are by this bill authorized so do.) Referred to the Committee on Judiciary.

Mr. Williams, of Augusta, from the Committee on Finance, reported recommending the assessment of a State Tax of seven and one-half mills on the dollar of valuation, being six and three-quarters mills for the ordinary expenses of government, and three-fourths of a mill for the Sinking Fund. Accepted.

Same gentleman from same committee reported asking to be discharged from further consideration of petition of Selectmen of Frankfort for transfer of a portion of valuation to the town of Monroe, and recommending reference to the Committee on Division of Towns. Accepted.

Mr. Holland, from the Committee on the Judiciary, reported leave to withdraw on petition of Selectmen of Corinth for legalization of certain doings of said town. Accepted.

Mr. Jones, of Lewiston, from the Committee on Manufactures, reported an act additional to an act to incorporate the Forest City Sugar Refining Company. Read and assigned.

Same gentleman from same committee reported an act to amend section 8, chapter 39 of the Revised Statutes, relating to lime and lime casks. This being a public bill lies over to be printed.

On motion of Mr. Walker, of Newport,

Ordered, That the Committee on the Judiciary be directed to inquire into the expediency of providing by law that married women shall be bound by their contracts the same as if sole and unmarried.

On motion of Mr. Estabrook, of Oldtown,

Ordered, That the Committee on the Judiciary be directed to inquire what further legislation is necessary to prevent the unauthorized use of trade marks and names.

Petitions &c., presented and referred—Of A. M. Roberts and others to be incorporated as the Bangor and Oldtown Association (by Mr. Garnsey of Bangor); of Charles E. Hatch for deed of a lot of land (by Mr. Haskell of Holden); of S. P. Strickland and others in aid of the petition of A. D. Brown (by Mr. Foster of Bangor); of H. N. Bolston and others of South Paris for change in the Hawker and Peddler law; an act relating to rules of evidence (by Mr. Walker of Newport); remonstrance of David Garland and 219 others of Winslow against set off of a portion of said town to Waterville (by Mr. Jewett of Clinton.)

WASHINGTON, Jan. 15.

Information has been received, that the four men attested in Anderson District, S. C., for the murder of three soldiers of the 12th Maine Regiment, on the night of Oct. 7 last, are to be tried in Charleston before a military commission of which Major General Devens is president. They were shot while guarding government cotton, and their bodies were after wards thrown into the river. Large numbers of the so-called best citizens of the district were engaged in the matter, and it is believed that the evidence brought out in this trial will result in further arrests.

Among the cadets just appointed to the Naval Academy is a boy named Wheeler, who was in the rebel army during the whole of the war, and was once caught as a spy and released on account of his youth, though he immediately afterwards returned to the rebel service. He was appointed by Representative Bitter of Kentucky, who rejected the application of the son of a Union general killed at the battle of Perryville. Senator Sherman asks Congress to turn the boy out of the academy, and pass a law preventing the appointment of any more of his antecedents.—[Sp. to Boston Advertiser.

LOCAL AND OTHER ITEMS.

CITY OF BANGOR,
Mayor's Office,
Jan. 16, 1866.

H. B. FARNHAM, Esq., City Marshal—

DEAR SIR: Availing myself of the earliest moment since the arrest of some of those who have been a terror to our community during the past year, I shall be false to my promise, (mentally made) did I not enclose a sum, which you will please divide as indicated.

It gives me pleasure, at near the close of my administration, to bear testimony to the fidelity of yourself, with your deputies; and in accepting this small amount, do so with the assurance of my kind regards.

Respectfully yours,
SAMUEL H. DALE, Mayor.

—We are indebted to Mr. Foster of the House for Legislative documents and reports.

—The next lecture of Prof. Gunning's course on Geology, will be on Friday evening at City Hall.

—Dr. Quimby, of Belfast, extensively known in this part of the State, died yesterday morning.

—The Ellsworth Journal learns that two probably three, vessels will be built at that place during the coming season. Also that two or more vessels are to be built at Castine—one by a stock company where young men have from $200 to $500 have invested.

—The Bethel correspondent of the Oxford Democrat says that lake trout fishing has become quite a business the present winter. The price is about 17 cents per pound at the lakes.

—Before the Supreme Court in Belfast last week, a case was tried, as we learn from the Belfast Age, in which Benj. F. Nourse, Esq., of Boston, formerly of this city, assessed $630 damages in favor of Benj. F. Howey, in consequence of defendant's foreman having burned a piece of felled woods on the defendant's farm in Orrington, in June, 1864, which spread to land of plaintiff and burned over some twenty acres of wood and timber land.

—A young lady of Westboro' was married on Thanksgiving day, to a returned soldier whom she had never seen before, the courtship having been conducted by letter. On the following morning she put on her cloak and ran away, and has not since returned.—[Pioneer.

—The Ponder says that during the late cold snap the mercury in that region went down to 40° and refused to go any lower.

—We have received a letter from Ebenezer Knowlton, stating that in consequence of continued ill health, he has been compelled to resign the place of one of the trustees of the State Agricultural College. Mr. Knowlton has been confined to his house ever since his return from the South last summer with a rheumatic disease. He writes, however, that he is now permanently improving.—[Belfast Age.

FIRE. We learn that the house and barn on the Nelson farm in Fort Fairfield, occupied by John McGowan, with all their contents, consisting of several hundred bushels of grain, hay, farming tools, &c., were consumed by fire on Monday night, 8th inst. About midnight Mr. McGowan was awakened to find the house on fire, and so far had the devouring element progressed that egress at the front door was impossible. He seized an axland opened a way for escape in another direction, and barely succeeded in saving himself and family, consisting of a wife and five small children, from a most horrible death.—[Pioneer.

—The Lewiston Journal says that John McMarston, of that city, was assaulted on Sunday night last, on Main Street, by Peter Murray, with a long-bladed knife, inflicting a wound in his right side about two inches deep—not fatal, however. The affray happened in consequence of a dispute between two parties of Irishmen and women. Murray, who was in liquor, is said to have made insulting remarks about the women.

—Collector Washburn, of Portland, is in Washington, urging the passage of an appropriation, now before Congress, of $75,000 for building a new Custom House; a sum not exceeding $25,000 may be expended in purchase of ground adjoining the site of the old Custom House on Fore street, or that site may be exchanged for a more eligible one at the discretion of the Secretary of the Treasury.

—The re-appointment of Charles Clark, to be U. S. Marshal for the District of Maine is confirmed, and that of Geo. F. Talbot, to be U. S. Attorney for the District of Maine, is also confirmed.

—Schooner H. K. Dunton, (of Rockland) Jameson, from Richmond for New York, with a cargo of scrap iron, lead, copper and rags, went ashore on Huegs Bar, at the entrance of Little Egg Harbor Inlet, and bilged. The crew took to the boat, and after three hours of severe labor, and almost perishing with cold, succeeded in reaching another vessel. The vessel struck on Sunday last during the snow storm.

—The Clarion says that the hotel in Norridgewock is completed and ready for occupancy.

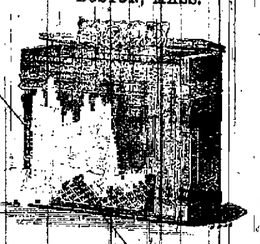
—The Aroostook Times learns that the Baptist Society at Houlton will build a new church the coming season. The cost of the building is estimated at $4,000.

—The Freedmen's Bureau is in receipt of a number of letters showing that the negroes are commencing the new year in a satisfactory manner.

Both Houses of Congress have passed the resolution giving the reconstruction committee authority to send for persons and papers. The committee will not at present ask for leave to send a sub-committee through the South. Witnesses have already been summoned to appear next week and give evidence.

The New England Freedmen's Association has contributed during the last month about $1500 worth of supplies to the freedmen of this district. Their contributions for last year were about $10,000.—[Special to Boston Advertiser.

S. D. & H. W. SMITH'S
AMERICAN ORGANS
MANUFACTORY,
Tremont, opposite Waltham St.
BOSTON, MASS.



The most perfect and beautiful Musical Instrument in the world for the American Home Circle.

THE AMERICAN ORGAN makes Home Attractive, and refines and elevates the minds of all. Beautiful in its appearance and effects.

Seventeen---17---First Premiums were awarded to the American Organs IN THE MONTH OF OCTOBER, 1865, over all Competitors, at different State and County Fairs.

First Premium awarded to the American Organs at the Great New York State Agricultural Fair at Rochester, September 1864, over the Whole catalogue exhibited by the most Celebrated Makers.

THE AMERICAN ORGANS are the ONLY REAL REED ORGANS now before the public.—The only Organ having a REVERBERATING SOUND BOX or WIND CHEST—which has the same important part to perform as the Sounding Board has in a Piano Forte (to give body and resonance of tone), and without which the Organ becomes merely a Melodeon in an Organ case. The American Organs not only have the Wind-Chest, or Sound-Box but have the large Organ Bellows, giving power and great steadiness of tone. These with their extreme fine voicing of the Reeds and perfecting of the tone, make them the MOST PERFECT ORGAN KNOWN. Then, in fineness of workmanship, finish of action, and case, they excel all others. These great improvements and superiority of tone, and workmanship of the AMERICAN ORGANS place them in the first rank as the best, and command a higher price than any other reed instrument in the market. A careful examination of them, in comparison with others, will quickly show their superiority.

Special attention is called to the style of AMERICAN ORGAN, No. 17, containing the Super-Octave Coupler and Sub-Bass FOR CHURCHES in want of a powerful instrument, whose means are limited its price renders it very desirable.

EVERY ORGAN IS WARRANTED TO PROVE SATISFACTORY.

THE AMERICAN ORGANS all have the Reverberating Sound-Box, or Wind-Chest, and are finished in the highest style of art, in Rosewood, Jet, Walnut, and Oak finish, richly Varnished, and Polished, or in Smooth Oil Finish, forming elegant pieces of Furniture for the Parlor or Boudoir; and the Oak and Walnut especially adapted for Churches, Lecture and Lodge Rooms.

THE AMERICAN ORGANS are all finished with our new PATENT improvements, containing the improved Knee Swell, Double Bellows, two Blow Pedals, and TREMOLO found in no other instrument.

SUMMER IN THE HEART.

The cold blast at the basement bears,
The window panes are white,
The snow whirls through the empty street—
It is dreary night!
Sit down, old friend, the glowing grate
Laughs at the winter's chill,
Though winter howleth at the gate,
In our hearts 'tis summer still!

For we full many summer joys
And green wood sport, have shared,
When free and ever roving boys,
The rocks the streams we dared!
And as I look upon thy face
Back, back to years of ill,
My heart flies to that happy place,
Where it is summer still.

Yes, though, like sere leaves on the ground,
Our early hopes are strown,
And cherished flowers lie dead around,
And singing birds are flown—
The verdure is not faded quite,
Nor mute all tones that thrill
For, seeing, hearing thee to-night,
In my heart 'tis summer still!

In thought, the olden times come back!
With light and life once more,
We scan the future's sunny track,
From youth's enchanted shore!
The lost return. Through fields of bloom
We wander at our will!
Gone is the winter's sunny gloom—
In our hearts 'tis summer still.

THE TWO GOLD DOLLARS.

Mr. Whittington, not the famous owner of the cat, and the one who knew so well what the 'Bow Bells' said, but plain Mr. Whittington, had been married for several years, and had two of the brightest and best little girls in all Boston. They were merry, lively little things, and were the light of their parents' eyes. Mr. Whittington and his wife were very cautious in their training of the children, for they felt that they must give an account to God for the manner in which they discharged their duty to them. Especially were they careful to endeavor to make their children sympathise with all forms of human suffering, and make them appreciate not only the duty, but the beauty of charity. They were rewarded for their efforts, for their children were all they could desire.

Mr. Whittington was a man of prominence in the city where he resided, and was frequently called on to aid in carrying out measures of a philanthropic nature.

One evening as the family were all seated around the supper-table, he turned to his oldest child and said:—

'Nellie, I am going to make a speech to-night. What shall I say?'

'I don't know, papa.'

'Perhaps I had better tell you,' said Mr. Whittington, 'where I am going. There is to be a meeting to-night in behalf of our 'Home for Little Wanderers.' This home is a home where they take little children who have no homes of their own, and who have often to sleep in the street, and have no one to care for them.'

'Oh, what very good people the folks that live in that house must be!' exclaimed Nellie, clapping her hands with delight.

'They are very good people, my child; but they need a great deal of money to carry on their work, and they have a very little now. This meeting to-night is to be held to raise money for the support of the institution. Can you tell me what to say now?'

'No papa; but I'll tell you what I'll do,' replied Nellie.

'Well,' said her father smiling

'I'll give them my gold dollar that I've been saving these two years.'

'And I'll give mine,' said Lizzie, the younger, who had been listening in mute wonder. 'That will be two dollars.'

Mr. Whittington felt his eyes grow dim with a soft moisture, but he smiled, and told his little girls that they made him very happy. He would take the two gold dollars to the meeting, and present them in their names, and he said he was sure God would bless the gifts. He felt that he could speak now, for, after such inspiration as he had just received, he could not help being eloquent.

That night he addressed a large audience, and when he held up the two gold dollars, after telling their story, they were greeted with a burst of delighted applause.

But this was not all. The gentleman who received them proposed to sell them to the highest bidder, as he said he knew there were persons present who would be glad to have these coins, made doubly precious by their history.

'It will take just fifty-two dollars to support a child in this institution for one year,' he said, 'I propose then to sell these coins for fifty-two dollars apiece, so that each of these may know that she has been the means of saving a child from sufferings for one year.'

The proposition was hailed with delight, and the dollars sold readily.

When Mr. Whittington went home, he found his little girls sitting up for him. They were all eager to hear about the meeting, and were delighted when they learned that they had, in reality, given one hundred and four dollars.

'Are you satisfied with what you have done with your money?' he asked.

'Oh, yes, papa,' said Nellie. 'We are glad we gave it. We've got nice warm clothes, and a good bed to sleep in, and we are very glad to make the poor children so comfortable.'

Mr Whittington, before leaving the meeting, had asked the superintendent of the institution to arrange the disposition of the money in such a manner that his little girls might know the children whom it supported. The promise had been cheerfully made, and Mr. Whittington now told his little girls he would take them to the 'home' before the year was out, and let them see the children for whom they had done so much. They were delighted at this prospect, and looked forward to it with eagerness.

It was six months before their father was able to redeem his promise; but at last they started for the 'home,' accompanied by both of their parents.

They were received by the Superintendent and shown over the building, and after this returned to the parlor. There they found a lady waiting for them with two little children.

'Girls,' said Mr. Whittington, 'these are the children that your gold dollars have given a home to. Would you like to hear something about them?'

'Oh yes, papa!' exclaimed both.

'I have no doubt Mr. ——— will tell you all he knows about them,' said Mr. Whittington, turning to the superintendent.

'Certainly I will,' said he.

'This little fellow,' he continued, pointing to a little boy, who stood with his finger in his mouth, 'we found one night, sleeping in a coal-shed. It was a bitter cold November night, and the little fellow had no coat nor shoes. He had cried himself to sleep, and when we woke him he begged us not to beat him. He said he had no father or mother, and never had any.

'He has never known his parents. They may have died, or may have turned him off as they were too poor to support him. We took him with us and brought him here. We gave him good warm clothes, and a comfortable home, and here he has been ever since.

'This other child,' and here the superintendent turned to a little girl, who was holding the hand of the lady in charge of her, and gazing intently at Nellie and Lizzie, 'is the daughter of a drunkard. In one of my visits about the lanes and by ways of this great city, I heard loud shrieks coming from a low hovel near me. I found the door open, and entered, and found a brutal, drunken wretch lashing this poor little creature with a great rope's-end. The cause of it I do not know, but I saw at once if the man was not stopped he would kill the child. I compelled him to let her alone. I had him arrested, and got Judge ——— before whom he was tried, to send the child here, where we could take care of her, and protect her from her brutal father. She is very happy here. Indeed both of the little ones are happy, and I am sure dear children, what you have seen to-day will be an ample reward for the noble deed you have made of your money.'

Nellie and Lizzie were fully rewarded, and their little hearts ran over with joy when they saw how much good they had done with their mites. And never had their parents loved them better than they did then.

'God bless the children,' said Mr. Whittington, as they turned towards their own home. 'Ah, God bless them indeed! for they are the truest and the best of all his earthly creatures here below.'—[American Union.

Helmbold's Highly Concentrated

COMPOUND

Fluid Extract Sarsaparilla.

For purifying the blood, &c., thereby having all diseases arising from excesses and imprudences in life, chronic constitutional diseases arising from an impure state of the blood, and the only reliable, safe, and effectual known remedy for the cure of Scrofula, Scald Heads, Salt Rheum, Pains and Swellings of the Bones, Ulceration of the Throat, Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly eruptions of the skin.

And Beautifying the Complexion.

NOT A FEW

Of the worst disorders that afflict mankind, arise from the corruptions that accumulate in the blood. Of all the remedies that have been made to purify it our compound stands equal.

HELMBOLD'S

COMPOUND

Extract Sarsaparilla,

Eradicates and renovates the blood, it stimulates the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that ignorance and folly have entailed. Such a remedy that could be relied on, has long been sought for, and now, for the first time, the public have found one which they can depend. Our space here does not admit of certificates to show its effect, but the trial of a single bottle will convince the sick that it has virtues surpassing any thing that has been taken.

One tablespoonful of the Extract of Sarsaparilla added to a pint of water, is equal to the Lisbon Diet Drink, one bottle of which is fully equal to a gallon of the Sarsaparilla, or the Decoction as usual in all cases.

EXTENSIVE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and are used by the General Hospitals in all the *State Hospitals* and *Public Institutions* throughout the land, as well as in private practice, and are considered as invaluable remedies.
